

**PINPOINT TEST G: THE SPEEDOMETER/ODOMETER IS INOPERATIVE**

CONDITIONS	DETAILS/RESULTS/ACTIONS
<b>G1 CHECK VSS SPEED SIGNAL BETWEEN CIRCUITS 679 (GY/BK) AND CIRCUIT 676 (PK/OG)</b>	
<p>1 </p> <p>VSS C1020</p> <p>2 </p> <p>4 </p> <p>GK8956-A</p>	<p>3 Raise the drive wheels off the ground.</p> <p>4 Set the voltmeter to AC voltage. Connect the voltmeter between VSS C1020 Pin 1, Circuit 679 (GY/BK), component side and VSS C1020 Pin 2, Circuit 676 (PK/OG), component side.</p> <ul style="list-style-type: none"> <li>• Is the voltage between 1.3 volts AC and 6.1 volts AC?</li> </ul> <p>→ <b>Yes</b> GO to <a href="#">G2</a>.</p> <p>→ <b>No</b> CHECK and INSPECT the speedometer drive gear. INSTALL a new VSS if the speedometer drive gear is OK. TEST the system for normal operation.</p>
<b>G2 CHECK CIRCUIT 679 (GY/BK) AND CIRCUIT 676 (PK/OG) BETWEEN THE INSTRUMENT CLUSTER AND THE VSS</b>	
<p>1 </p> <p>2 </p> <p>Instrument Cluster C251</p> <p>3 </p>	<p>3 Measure the resistance between instrument cluster C251 Pin 16, Circuit 679 (GY/BK), harness side and VSS C1020 Pin 1, Circuit 679 (GY/BK), harness side; and between instrument cluster C251 Pin 16, Circuit 679 (GY/BK), harness side and ground.</p>

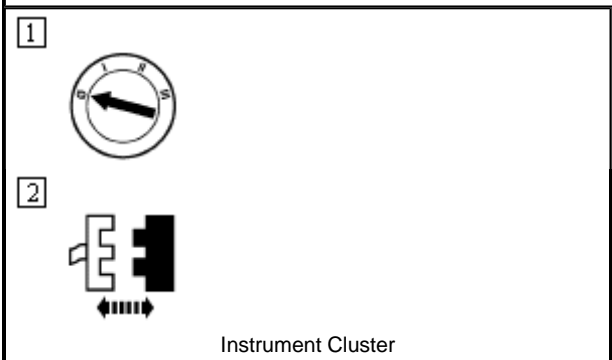

4 Measure the resistance between instrument cluster C251 Pin 14, Circuit 676 (PK/OG), harness side and VSS C1020 Pin 2, Circuit 676 (PK/OG), harness side; and between instrument cluster C251 Pin 14, Circuit 676 (PK/OG), harness side and ground.

- Is the resistance less than 5 ohms between the instrument cluster and the VSS, and greater than 10,000 ohms between the instrument cluster and ground?

→ **Yes**  
GO to [G3](#).

→ **No**  
REPAIR the circuit in question. TEST the system for normal operation.

**G3 CHECK THE INSTRUMENT CLUSTER PRINTED CIRCUIT**

3 Inspect the instrument cluster printed circuit for damage.

- Is the instrument cluster printed circuit damaged?

→ **Yes**  
INSTALL a new instrument cluster printed circuit. For additional information, REFER to [Instrument Cluster](#). TEST the system for normal operation.

→ **No**  
INSTALL a new speedometer. For additional

information, REFER to [Instrument Cluster](#) . TEST the system for normal operation.
